

## **Derbyshire Police Consultation November 18**

**I thought I would contact you all to explain briefly a new idea that's been put forward that I think all your parishes will benefit from. We are trying to approach groups within the community and establish who would like to become a Stakeholder. Ideally we would like members to be members of the community that have a vested interest in their community.**

**We will then as a Force communicate and consult with these Stakeholders in relation to our Planned engagements, so that you get to have an input in the planning stages and can work in partnership to get the best for each community as one single approach may not help everyone. We can focus on communities individual strengths and weaknesses.**

**If anyone can think of any other groups that have a vested interest in the community, please let me know and I will contact them.**

**Note from Holymoorside & Walton Parish Council- your parish council has already registered as a stakeholder but any group is also welcome to do so. In the first instance please e-mail;**
